INTERIOR DOORS

2018 COLLECTION

MASONITE.

Open to extraordinary.

Open to
extraordinary™

Masonite is committed to delivering unsurpassed performance in interior and exterior doors and glass products. Our goal is to provide not just a door, but a total experience, giving you a complete line of products, services and support tools designed around your success.

We are the leading source for the latest trend insights and design ideas, delivering distinctive door styles that complement any home and personal taste. From the crisp, clean lines of our Heritage Series™, to the traditional elegance of our Masonite Classics™ Collection, we offer a breadth of interior doors to meet any design, performance and material you need, so you always have the right answer for your customers.

Every product we offer is the result of years of research, design, engineering and development that begins at the Masonite Innovation Center in Chicago, the largest

facility of its kind in the industry. It is our dedication to a fully integrated design process that sets us apart from the competition and ensures every product we deliver lives up to our exacting standards for quality, consistency and craftsmanship.

YOUR TRUSTED PARTNER

Masonite is not just a trusted leader in interior doors; we are a powerful partner who helps you elevate the role a door plays in your projects—creating more inspiring customer experiences and stronger business results.

► Add a defining element to any space with familiar designs that offer timeless appeal.

Safe 'N Sound®

THE NEW STANDARD

SOLID CORE DOORS

We are on a mission to put solid core doors in every home. Made of solid material all the way through, they feel more substantial and block sound more effectively. For minimal cost, solid core doors create a dramatic improvement in overall quality.

Solid core doors are **DURABLE**, able to withstand the dents and dings of normal wear.

Solid core doors are **SOUND REDUCING**, blocking sound more efficiently than hollow doors.

Solid core doors are simply built better, a strength you can **FEEL** the moment you open the door.

It's time for a better door experience.

Make solid core doors the STANDARD.

RE

For decades, we have been deeply invested in expanding our expertise in acoustics and have built doors for hospitals, schools, hotels and multi-family homes.

It is with this same confidence and expertise that we bring solid core to the residential space.

“ Solid core doors are going to pay for themselves within the first year or two. ”

*Bill Peck,
Architect*

“ Even if people don't realize it, it's kind of a subconscious comfort... The solid core doors are worth it. ”

*Chris Miles
Custom Homebuilder*

Improve the overall value of the home for pennies on a mortgage payment

100%

of all consumers prefer solid core vs. hollow core when given the choice*

**Smith Dahmer Consumer Focus Group*

*Thinner outer style will not affect functionality. Due to manufacturing processes, a 3/16" tolerance is acceptable on horizontal lines.

**Not for use with double doors.

Note: 48", 60" and 72" bifolds are achieved by doubled 24", 30" and 36" bifolds.

Molded Panel Series Notes: Please note that some sizes are only available as a result of being trimmed from a larger facing. The trimming process may result in a stile width that is too narrow to accommodate a standard bore. To machine a standard bore with a 2-3/8" backset on the lock hole and a 2-1/8" diameter bore, the outer stile measurements must be no less than 3-7/16" wide. Many facings have a lockrail that will accommodate a standard bore even when the stile width is too narrow. Please refer to Masonite Molded Door Facing Dimensional Specifications to verify the outer stile measurements or contact your Masonite Interior Door servicing plant. Textured refers to embossed wood-grain. Pre-finished white is available as textured only. Not all molded panel designs and sizes are available in all regions as stock products. Please check for special order availability.
